Hi Molly,

Thank you for returning my call yesterday. Further to our conversation, I would like to forward the links to our website and a link to the current project for your review.

Link: <https://www.deearholdings.com>Link: <https://dservgun.github.io/pdf/CurrentProjects.pdf>Blog: <https://dservgun.github.io> (a general blog on various contaminants: hydrocarbons, TCE/PCE, and how my group tries to address them in our projects).

Please feel free to reach out to me with any questions or clarifications. I will be happy to jump on a call to discuss our field experiences with your department.

Dinkar
